|--|--------|
| Total Number of pupils in Years 5 and 6                | 217    |
| Total amount of Sport Premium funding received         | £18170 |

**Support funded through Sport Premium allocation**

The sports premium funding was used to give all the students in key stage 2 the opportunity to take part in traditional and less traditional sporting activities including watersports and accessing outdoor activities.

Being able to provide these opportunities has given students the opportunity to take part in physical activities that they may not have experienced. These invaluable opportunities have inspired students to challenge themselves to be self motivated in being active. In addition, as students have had these exciting opportunities it was noticeable the positive impact it had on students to broaden their experiences of teamwork and motivation.

We have funded swimming sessions for students in Key Stage 2 with a focus of securing the ability to swim 25 meters unaided who have not yet secured the skill. In 2017/2018 30 students in Year 6 were able to swim 25 metres unaided (28%). Although, there is more to do, this life skill is more pertinent due to our coastal location.

A coaching team for rugby came in to school to coach Year 6 students which had a positive impact due to the interest expressed for playing rugby. The focus was on rugby and also team building skills which students engaged well with. A football coach came in from Futsal to deliver taster sessions and also make links with clubs in the local community. Securing these links is an important and exciting opportunity to forge closer working relationships for students to develop further.

**Impact of Sport Premium Funding**

Students at KS2 were provided with the opportunities to access sporting fixtures including

- Football matches - To enhancing their skills and act upon feedback.
- Football tournaments - To aid competition and enjoyment and celebrate successes.

- Sports hall athletics - To experience a range of indoor sporting activities.
- Tag rugby - To promote teamwork and enhance communication skills, and team work.
- Athletics - To refine the different skills associated with these activities
- Quad kids - competitions for athletic events

Equipment for lessons was purchased for lessons which consisted of:

- Tennis nets
- Tennis rackets and balls
- Footballs
- Netballs
- Gym mats
- Vaulting box
- Two video cameras were purchased for students so that they could have the opportunity to review their skills so that they can be enhanced further
- Rounders bats and balls.

Equipment was purchased for break activities on both yards including:

- An activities wall
- Footballs
- Basketballs
- Tennis rackets and balls
- Cricket bats and stumps
- Swing balls
- Soft balls
- Skipping ropes
- Hula hoops.

Sports Premium Funding was also used to access less traditional sporting activities.

- Year 5 watersports trip to Coquet Shorebase - this provided students with the opportunity to participate in windsurfing, canoeing and sailing activities.
- A rugby league coach came in to school for half a term to teach Year 5 classes so that they had a specialist trained rugby coach. This was a positive experience for both students and staff due to the training activities they used and also the specialist insight they gave to students to inspire the love of sport, the promotion of team work, communication and being the best they can be.
- A Year 6 trip to Kirkley Hall activities centre was attended by all students in the year group. Students experienced a wide range of activities ranging from assault courses, climbing walls and zip wires. These opportunities were enjoyed by students which promoted team work, encouragement, communication and self belief which are important life skills which can be applied in a range of contexts.
- Year 6 swimming at assessment at Willowburn sports centre.

The sports premium money has given pupils an opportunity to try a wide range of sports, to work with their peers in a team, to give pupils more confidence in their own ability. At break and lunchtime the purchase of equipment has allowed students to become more active during this time which has had a positive impact on their overall fitness.

**Sustainability** - The aim to use this money to create a sustainable curriculum for all students. Some of the money provided by the funding will be invested in the professional development of staff by identifying specific sports training courses to enhance skills and knowledge. As a result this should enhance and impact positively on the quality of teaching for all students through appraisal reviews, student voice and lesson observations. Joint planning amongst staff has been developed to create a consistent approach to teaching PE. Due to the investment in PE equipment will provide students with the opportunity to participate in these sports for a number of years before needing to be replaced. Students also have a good understanding of health and well-being as this is promoted in PE lessons. Staff are able to deliver after school clubs at no cost to school, either as a result of courses attended or having worked alongside qualified sports coaches. PE resources within school continue to improve year after year, allowing teachers to deliver the PE curriculum effectively. Good practice is also shared amongst staff in meetings and in collaborative planning which impacts positively on student progress and lesson engagement. As a result, the quality of children's learning and development will be improved as well as cultivating an appetite to become more active and participate in physical activities.

## PE and Sport Premium -School Allocation 2018 / 2019

| Support funded through Sport Premium allocation                            |         |

| Anticipated amount to be received amount of Sport Premium funding received | £18,130 |

### Support funded through Sport Premium allocation

This year we plan on continuing to offer a range of sports fixtures and activities including:

- Football matches
- Sports hall athletics
- Quad kids
- Tag rugby
- Football tournament
- Athletics
- Coquet Shorebase (water sports activities)
- Kirkley Hall Activities Centre

A member of the PE department has attended bike leadership course which allows students to be taken out upto 50 miles on the bikes. This can be to aid confidence building as well as practical skills such as reading signs, decision making and road safety, as well as team work.

The funding will be used to enhance student engagement in PE lessons through the purchase of equipment and also to acquire equipment that can be used during break and lunch times. This will build upon last years funding as further equipment will be purchased to enhance PE lessons further.

Sports Premium Funding will continue to be used to access less traditional sporting activities promote student engagement in physical activities, support students working together in teams and for them to enhance their confidence in their own abilities. Also, we will continue to build external links with other providers to provide further opportunities for our students. This will for example include professional rugby coaches to come in to school.

During this new academic year (in the autumn term) we will ask students in Years 5 and 6 for their opinion of what new equipment they would like to enhance their engagement in physical activities in both PE lessons and also during lunch and break times.

For our Year 5 students we are contacting a local swimming pool so that students can attend swimming lessons which will prepare them for being able to swim competently, confidently and proficiently over a distance of at least 25 metres. In addition, students will be taught to use a range of strokes effectively and perform safe self rescue in different water based situations. It is planned for Year 6 students to attend swimming lessons in the summer term to prepare them to be able to swim competently of at least 25 metres. In addition, students will be taught to use a

range of strokes effectively and perform safe self rescue in different water based situations
