

## Values Statement

At James Calvert Spence College every student is important to us. We are a federation of a first, middle and a high school so students join us when they are five and leave us when they are 16 or 18. Our schools are small so we get to know our students really well. No child is over looked or unknown and we can give every child the individual attention which helps them make the most of their education, whatever their starting point. We feel it is a privilege to see our students change and develop from the children who join us in Year 1 to the young adults who leave us as mature and inspirational young people who go onto take degrees at university, gain apprenticeships and training with world renowned companies or take up jobs which they enjoy and are well qualified to do.

In the college we aim to;

- help students enjoy their education;
- value the individual differences of our students and provide them with an education which helps them to succeed whatever their starting point;
- develop excellence and creativity in our students and nurture their skills and abilities;
- provide an education which prepares students well for the next stage in their life;
- help our students become caring and confident young people;
- ensure that our students respect others, are tolerant, courteous and have the skills to play an active part in their communities;
- keep children safe in school and give them the skills to stay safe in the wider world;
- work in partnership with students and their parents and/or carers so that students become the best person that they can be.

Our students exemplify all of the aims above and they are a credit to their parents and to us. We are very proud to be part of our local community and we are delighted that we are developing young people who will play an active and positive part in their communities in the future.
