Online tutoring- Years 6 and 11

Dear Parent or Carer

We are currently looking into small group, online tutoring that would take place either in school at the end of the day or at home once students return from school. Sessions would last between 45 minutes and one hour and each child would be given up to fifteen sessions. Tutoring would take place on a weekly basis in Maths or English, most likely running from January and aimed at around 70 children.

We would really like to know if you might be interested in this scheme. Students would be expected to attend all the sessions. Please do not worry if access to a computer or broadband is an issue and you will notice we ask about this in one of the questions. We are currently only asking families with children in Years 6 or 11 to complete the questionnaire and at this stage it purely to see how much interest there is in the scheme.

The form also allows you to ask any questions or make any comments. It is open until Friday 5 November. Here is the link:

We look forward to hearing from you soon.

Yours faithfully

Mr David Nisbet
Head of School
