Dear Parent / Carer

Re: Super Learning Week

Next week your child will be involved with our Super Learning Week which will involve a wide range of educational and team building activities.

This exciting opportunity will mean that students will not follow their normal timetable.

Instead, the students can focus on developing their scientific skills and knowledge, in preparation for their forthcoming GCSE's examinations next year.

On Friday 8th March we are visiting The Centre for Life in Newcastle where students will be able to interact with a wide range of learning experiences relating to science. This provides an excellent opportunity to see the application of science and its importance in society.

There is a café at The Centre for Life. This is likely to be expensive and may have queues which could result in students losing a lot of their lunchtime. Therefore, we are recommending students bring their own packed lunch.

Please note, that if your child receives free school meals they will be provided with a packed lunch by school. The cost of the trip is £6 per student. School is paying for the transport costs and the only additional cost is the entry fee to the Centre for Life. This can be paid in "School Shop" on the MCAS app or in cash at reception prior to the visit. If you are experiencing financial difficulties and require support, please do not hesitate to contact us.

Please complete the form below by Tuesday the 5th of March to give permission for your child to attend the Centre for Life visit on Friday 8th of March.
